4th International Conference & Exhibition on Polyphenols Applications

01 dicembre 2017

Oggetto: 4th International Conference & Exhibition on Polyphenols Applications: From Source to Optimal Industrial Uses - Malta 15 e 16 Novembre 2007

APRE segnala questo evento internazionale che si terrà a Malta il prossimo 15 e 16 Novembre 2007.

"4th International Conference & Exhibition on Polyphenols Applications: From Source to Optimal Industrial Uses"

WEBSITE: <http://www.isanh.com/polyphenols/2007/>

DATES & VENUE: Radisson SAS, St. Julians MALTA; November 15th-16th

TOPICS which will be addressed by experts in their respective fields

include:

- role of polyphenols in chronic disease prevention, particularly obesity and diabetes
- nutrigenomics
- advances in polyphenols processing
- improving bioavailability of polyphenols
- evaluation of antioxidant properties of polyphenols
- processing wastes from fruit and vegetables
- practical applications of polyphenols in the food industry (including food and meat preservation)
- polyphenols in the cosmetics industry

In addition, sessions for short oral communications will be held, together with posters and a polyphenols exhibition. Therefore, this conference targets a wide audience, from physicians, to scientists and academic researchers, nutritionists, pharmacists, pharmaceutical

companies, the beverage industry, food supplement companies, etc.

Interested participants and/or sponsors are kindly requested to contact directly Dr. Neville Vassallo (neville.vassallo@um.edu.mt) or phone 00356 21323660.
