ricerca partner dall'Europa per il bando congiunto ICT - Sicurezza.
angrisani@apre.it

----- PARTNER SEARCH ICT-EU-STRE-1 -----

<Reference n.: ICT-EU-STRE-1>

<Deadline: 20/11/2007>

<Programme: >ICT-SEC

<Project Title: COMMIT - Crisis Conduct, Monitoring and Management
through an Interconnected and Interoperable set of Tools>

<Financial Scheme: Progetti di ricerca specifici - STREP>

<Description: The overall aim of the COMMIT project is to define and
develop an open, flexible and scaleable system of systems architecture
where crucial information about land surface transport Critical
Infrastructures (CI) can be gathered, stored, accessed, distributed,
integrated and presented in order to quickly identify malicious
attacks or accidental failures, make sense of the situation, show it
in a timely way, and give insight and clues for coordinating the
answer with actions that can rapidly repair the situation.>

<Organisation Type: Altro>STREP

<Partner Sought: Field of expertise expected:

The COMMIT project is seeking security and ICTT experts in the area of
Surface Transportation Critical-Infrastructures that can provide
knowledge on all the matters related with its security.

Type of partners:

The partners can be research institutions, software development
companies, SMEs, end users or infrastructure owners/operators/users.
