PARTNER SEARCH HEALTH-PT-LCP-4

Richiesta di un'azienda israeliana alla ricerca di partner da includere in un loro progetto da presentare nel programma COOPERATION tematica SALUTE.

Per maggiori informazioni sulla Ricerca Partner e per conoscere i contatti del proponente, potete consultare il seguente indirizzo web: <http://www.apre.it/formaAssist/scheda.asp?id=1032>

----- PARTNER SEARCH HEALTH-PT-LCP-4 -----

<Reference n.: HEALTH-PT-LCP-4>

<Deadline: 01/09/2008>

<Programme: >

<Project Title: RTBCM: Regeneration of tissue using biocompatible materials and cells. >

<Financial Scheme: Progetti in collaborazione - Large>

<Description: Priorities' Main Research Areas:

Development of blood vessels and Soft Tissue patches with endothelial regeneration assuring in blood vessels non-clotting and endothelial formation and in patches the same or in other applications good tissue adherence.

Workprogramme Topic:

Use the platform technology possessed by the SME to build better blood vessels and bio degradable or bio compatible patches for hernia repair.

Project description:

Develop new biodegradable or bio acceptable materials using electro-spinning and polymers that:

1. Blood vessels assure non-clotting and acceptable replacement of smaller then 5 MM blood vessels.
2. For dual sided patches assure on one side good tissue adherence and the other side no-adherence.
3. For other soft tissue replacements assure non rejection by body, controlled material degradation and replacement by tissue regeneration.

<Organisation Type: PMI >

<Partner Sought: Profile of Partner sought.

Role:

- technology development

- research

Start of partnership:

-mid-term

Expertise required:

-Bio-degradable materials, polymer sciences, clinical testing sites.
