
Public consultation on Information and Communication Technologies enabling Energy Efficiency

01 dicembre 2017

Public consultation on Information and Communication Technologies enabling Energy Efficiency

importante comunicazione della Commissione Europea relativa ad una consultazione pubblica sull'argomento: ICT per l'efficienza energetica.

We would like to draw your attention to the Public consultation on Information and Communication Technologies enabling energy efficiency (<http://ec.europa.eu/yourvoice/ipm/forms/dispatch?form=ICT4EE>), that is now open until 21st July 2008.

Please note that on <http://ec.europa.eu/yourvoice/ipm/forms/dispatch?form=ICT4EE> it is possible to change the layout of the Consultation clicking on "Change paging mode" on the left side of the page. This operation enables you to see the questionnaire in once. In order to see and print out all the questions for the sectors of your interest, you should click on "I will answer to this domain".

Since the questionnaire is only available in the on-line version, we highly recommend either to follow the above mentioned explanation in order to print out all the questions, or to copy/paste them into a word document.

However, please kindly note that the questionnaire has to be filled on-line.
