----- PARTNER SEARCH TRA7-EU-SMCP-6 -----

<Reference n.: TRA7-EU-SMCP-6>

<Deadline: 07/05/2008>

<Programme: Trasporti>

<Project Title: RAILNET: Permanent Monitoring of Railways Infrastructures Using Autonomous Radio Networks>

<Financial Scheme: Progetti in collaborazione - Small or Medium>

<Description: Topic:

SST.2008.4.1.1 Security and safety by design

Project:

The objective of the project is to develop an innovative safety and security network that will allow railways operators permanent and complete monitoring of their infrastructures and the automatic detection of incidents. The principle behind RAILNET is to use vision and other smart sensors to automatically supervise the rail line, detect incidents and send representative information of the event to a control centre or approaching trains. Core technologies used: computer vision, innovative energy harvesting, adaptive radio networks.>

<Organisation Type: Impresa>

<Partner Sought: Partners already involved:

STI, SEA, UPM, IONIC, GIM

Profile of Partner(s) Sought

Role in the project:

- Demonstration
- Other: End User

Country :

- EU Members
- Associated Countries

Type of organization:
