Singleimage Workshop 2008 - Coordinating EU Research Projects

A workshop explaining how EU collaborative research projects funded under the Framework Programme really work, is being held in Cambridge in January 2008:

COORDINATING EU RESEARCH PROJECTS
Tuesday 15 January 2008 - Cambridge, UK

The workshop covers both the formal basis of the project from contracts to reporting and review, and the practicalities of coordinating a multi-partner, multi-country project. It is aimed at research managers coordinating EU collaborative research projects for the first time. It is also suitable for technical staff managing their organisation's participation in EU collaborative projects, and those developing the management section of proposals for these projects.

The workshop will be limited to 24 participants to allow high levels of interaction and plenty of time for questions, and will be given in English.

For more information please contact me or visit our web site at: www.singleimage.co.uk. Please also note that the nearest large airport to the workshop venue is London, Stansted.

If you no longer wish to receive details of our workshops, please be kind enough to let me know by return.
