IMI: PARTNER SEARCH HEALTH-EU-----1

Richiesta di un'università austriaca alla ricerca di partner da includere in un loro progetto da presentare nel bando IMI- INNOVATIVE MEDICINE INITIATIVE.

Per maggiori informazioni sulla Ricerca Partner e per conoscere i contatti del proponente, potete consultare il seguente indirizzo web: <http://www.apre.it/formaAssist/scheda.asp?id=1059>

----- PARTNER SEARCH HEALTH-EU-----1 -----

<Reference n.: HEALTH-EU-----1>

<Deadline: 15/07/2008>

<Programme: IMI>

<Project Title: Innovative Medicines Initiative: Non-genotoxic carcinogenesis >

<Financial Scheme: >

<Description: Innovative Medicines Initiative

Call 1, Topic 2:

Non-genotoxic carcinogenesis: Identification of early markers and molecular classification of tumours

The aim of the project is to identify biomarkers predicting carcinogenesis by non-genotoxic carcinogens mainly in experimental rodent animals. Also tumor profiles will be identified that discriminate spontaneous from induced tumors.>

<Organisation Type: Università>

<Partner Sought: The project will identify a rather large number of proteins potentially suited as biomarkers in rats, mice and humans. We look for a group/SME able to produce antibodies of high specificity and sensitivity and to develop ELISAs to be used in serum. Also a high throughput system for immunohistology on multiple tissue (rodent tumor) sections would be welcome.
