

Ricerca partner dalla Bulgaria in "Scienza in Società" 7PQ

01 dicembre 2017

Ricerca partner dalla Bulgaria in "Scienza in Società" 7PQ
proposta da presentare nel bando "Scienza in Società" 7PQ proveniente dalla
Bulgaria ed in cerca di partner.

----- PARTNER SEARCH SIS-IT-CSA-2 -----

<Reference n.: SIS-IT-CSA-2>

<Deadline: 21/02/2008>

<Programme: La scienza nella società>

<Project Title: SCIENSOL - Science Culture Twinning of Cities >

<Financial Scheme: Azioni di Coordinamento e accompagnamento - CA>

<Description: Aim of the proposal is the formation of a network with the following topology: based on one of the more traditional and developed networks in Europe and worldwide - the network of twinned towns or sister cities. The partners included in the preliminary list are mainly Varna twinned towns (sister cities) - 14 from 22 and are of different sizes - from 12 to 6000 thousands and different types - 15 from member states, 4 from associated countries, 2 from ICPC (International cooperation partner countries) and 1 from Russia (see the list of expected participant cities).

Broadest geographical coverage will be reached by distribution and spreading of projects results and some of activities beyond the consortium across the set of partners' sister cities - every participant will distribute some of best practices and results of the project among his twinned towns (see schema). Some of these twinned cities could be incorporated directly in the project with a status of associated partners.

Constructed in such way network of cities has to be complemented with an appropriate chosen space (plane, sphere, platform, ect.) of development of their activities on science culture at local and wider European level (context).

The first step is definition and exchange of best practices between cities in diverse forms (twinning, coaching, networking)

The second more advanced step is the formulation of some kind of integrated actions as a combination of some of the best features and characteristics of cities' best practice and recommendation and attempt for their implementation. It is planned for the second 1-1.5 year of the project.

Finally the results and lessons of the project will be discussed and disseminated at the closing Conference after more of 2 year experience organized in some of the cities - partner.

A number of needed visits for exchange of best practice will be realized.

<Organisation Type: Pubblica Amministrazione>

<Partner Sought: Network of cities - Municipality, City Council >
