ICT CALL 5: opportunities to find partners\_Georgia, 11 - 12 June 2009

APRE segnala un invito (che troverà di seguito) da parte del team Ideal-ist. Per maggiori informazioni ed iscrizioni può contattare direttamente [mercurio@apre.it](mailto:mercurio@apre.it) e/o [deangelis@apre.it](mailto:deangelis@apre.it)

-----  
We are pleased to invite you to take part in the Conference "Fostering scientific and research co-operation between the Eastern European and the Southern Caucasus countries and the EU" in Tbilisi on 11-12 June 2009.

The event is co-organised by the EU-funded FP7 EXTEND project ([www.extend-ict.eu](http://www.extend-ict.eu)) and IDEAL-IST project (<http://www.ideal-ist.net>).

The Conference will address Information and Communication Technologies (ICT) stakeholders such as

- \* leading researchers and
- \* experts from academia and industry and representatives of Ministries from the Eastern Europe and Southern Caucasus countries.

The conference aims to

- + make research communities of the region aware of funding opportunities offered by the Framework Programmes of EU and
- + foster potential co-operations through dedicated networking activities.

During the Conference, the regional ICT research environment will be discussed, the forthcoming ICT challenges of the 7th Framework Programme will be explored and collaboration both within the region and with Europe will be pursued.

Moreover, the IDEAL-IST network will organise a brokerage event within the conference, targeting Challenges 1 and 9 of the ICT call 5. This event will give a description of the objectives within the calls and provide a unique opportunity to R&D actors across the region to meet and exchange contacts.

Benefit from opportunities given by this event to find the right partners to your future project consortia and prepare and submit successful proposals for the upcoming calls of FP7.
